DETAILED ACTION

1. Claims 26, 100, 102, 104-112, 114, 133, 134, and 142-144 are pending in the communication filed 4/22/11 entered as Response After ExParte Quayle Action.
2. The Drawing Objection has been overcome by the submission of New or Additional drawings filed on 4/22/11 and the Objection is hereby withdrawn.
3. The Amendment to the Specification is acknowledged.
4. The IDS filed 03/28/07 has been corrected and attached to this communication.

Claims 26, 100, 102, 104-112, 114, 133, 134, and 142-144 now renumbered 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art Nabors et al. and Franklin et al. disclose purchase request records stored in a computer system remotely accessible via a network and created from data received from potential buyers with the data including buyer contact information and product information. Nabors et al. and Franklin et al. did not disclose a computer storage medium configured to assign each of the purchase request records to only a subset of participating sellers according to the purchase request criteria, the purchase request criteria for each of the participating sellers predetermined according with a relationship between a lead distributor and each of the plurality of participating sellers.

Brian S. Akre; "Car-buying services find you deals online; [Final Edition]" discloses Internet car-buying services that take the haggling out of purchasing a car or truck by providing information from dealers. Brian S. Akre; "car-buying services find you

deals on line; [Final Edition]" did not disclose a computer storage medium configured to assign each of the purchase request records to only a subset of participating sellers according to the purchase request criteria, the purchase request criteria for each of the participating sellers predetermined according with a relationship between a lead distributor and each of the plurality of participating sellers.

Other Prior Art of Record

Julie Nash; "Not your father's way to shop for an oldsmobile more people are finding their wheels on the We (includes box: Shopping sites)".

Cassandra Cavanah; "Effective use of PR-makes Autobytel.com a household name".

Kim Komando; "Web shifting how we buy cars.com".

PR News wire; "Washingtonpost.com and cars.com Launch comprehensive automotive Web Site for the Washington area".

Gregory L. White; "General Motors to Take Nationwide Test Drive on Web --- Auto Maker to Expand Its Internet Site to Offer Prices, Inventory Information".

Eric Tyson; "How your computer can get you the right car at the best price".

Nelson (US 6,922,674); Luke et al. (US 6,131,087); Peterson et al. (US 6,324,522); and Ertle (US 2004/0068442).

An extensive search was performed and no better prior art was found.

For these reasons claim 26 is deemed allowable over the prior art of record and claims 100, 102, 104-112, 114, 133, 134, and 142-144 are allowed by dependency.

It appears that the instant invention is beyond the skill of one of ordinary art. Accordingly the invention would NOT have been obvious because one of ordinary skill could not have been expected to achieve it. NOR would they have been able to predict the results, and as such, they would have not capability of expecting success.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
